Notice of Public Information Collection(s) Submitted to OMB for Review and Approval

July 21, 1998.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection, as required by the Paperwork Reduction Act of 1995, Public Law 104–13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written comments should be submitted on or before August 26, 1998. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

SUPPLEMENTARY INFORMATION:

OMB Approval Number: 3060–0332.

Title: Section 76.614 Cable television system regular monitoring.

Type of Review: Extension of a currently approved collection.

Respondents: Business and other for-profit entities.

Number of Respondents: 9,300.

Estimated Time Per Response: .5 hours–1 hour.

Frequency of Response: On occasion reporting requirement.

Total Annual Burden to Respondents: 9,300 hours.

Total Annual Cost to Respondents: \$32,550.

Needs and Uses: Section 76.614 requires that cable television operators transmitting carriers in the frequency bands 108–137 and 225–400 MHz shall provide for a program of regular monitoring for signal leakage by substantially covering the plant every three months. This collection (3060–0332) accounts for the paperwork and recordkeeping burden associated with maintaining logs that show the date and location of each leakage source identified, the date on which the leakage was repaired and the probable cause of the leakage. This data are used by cable television systems and the Commission to prevent, locate, and eliminate harmful interference as it occurs, to help assure safe operation of aeronautical and marine radio services and to minimize the possibility of interference to these safety-of-life services. If this collection of information is not conducted, there would be a greater likelihood of harmful interference to aeronautical and safety radio services, Commission efforts to locate and eliminate such interference would be impaired, and there would be a potentially greater risk to safety-of-life and property.

Federal Communications Commission.

Magalie Roman Salas,
Secretary.
